

1st International Conference on Advanced Materials and Advanced Manufacturing (A2M2C)

The conference delivers world class thought leadership, content and discussions that matter most to the future of AM and insights to help navigate and overcome related challenges.

18-20 Oct 23
(10:00-16:00 hrs)

Topics

Advance manufacturing
Advanced materials for AM
Post processing of AM parts
Wear response of AM materials
Modeling and simulations in AM
Characterizations of AM materials
AI, Automation and Robotics in AM
Corrosion behavior of AM materials
Mechanical behavior of AM materials

Deadlines

Beginning of abstract submission: 18th Sept 2023
End of abstract submission: 29th Sept 2023
Preliminary decision: 10th Oct 2023
Final submission: 15th Oct 2023

Registration Fees

Faculty/ Industry: 100 €
Student: 20 €

KEYNOTE SPEAKERS

- Dr. Gustavo M. Castelluccio
(Cranfield University, UK.)
- Dr. Andrea Cini
(Universidad Carlos III Madrid)
- Lars Langhans
(FIT Additive Manufacturing Group)
